Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

These breaches were identified by an assurance scheme audit and not by Natural Resources Wales.

You have been given CAT 4 CCS scores for the breaches because during the assurance scheme inspection it was noted that numerous documents were not in place, which is a requirement of your permit.

Non-conformances:

1. Energy review not available at audit

2. Water review not available at audit

3. Waste review not available at audit.

A detailed explanation of the required content of the reviews can be found in the 'How to comply with your environmental permit for intensive farming' document which has been sent to you.'

Please complete and present the required documents to Natural Resources Wales by 07/12/2018.
