Dear Deborah,

Compliance Assessment Report

I am pleased to let you know that the activities we inspected the following on Tuesday 29th July 2010 were assessed as being compliant with the following regulations;

- Permit Ref: VP3732MF – Kilreague, the Environmental Permitting (England and Wales) Regulations 2010
- Permit Ref: VP3732MF – St Pierre, the Environmental Permitting (England and Wales) Regulations 2010
- Permit Ref: RP3932MF – Langstone, the Environmental Permitting (England and Wales) Regulations 2010

The only point to note was at Langstone. During the inspection a lot of flies were evident around House 1 & 2. Because the issue was isolated and no offsite impact or odour issues were observed, no non-compliance has been scored on this occasion. However please ensure that steps are taken to treat fly problems as and when they occur. Overall each site was in good condition at time of inspection and I was please to see that all issues raised in previous inspections have now been addressed.

Following this round of inspections we Kilreague and St Pierre Farm are now eligible for the IPPC Pig and Poultry Assurance Scheme. However nominations for the scheme only take place once annually. Unfortunately the next round will not be until next April 2011. Nearer that date you will be sent a letter informing you of your eligibility and inviting you to join the scheme.

Please contact me if you have any questions about this letter or the regulations.
