Dear Mr. Parker

RE: Inspection against IPPC permit XP 3036MG Cefn Mawr Poultry Farm.

Thank you for your time and cooperation during my inspection on 17th July 2013, I am pleased to confirm that most aspects of the permit were being complied with .During the inspection the following issues were noted ;

Condition1 Inspection and Maintenance: There were areas of concrete in front of house number 2 which were cracked, these need to be repaired in the next six months and a plan submitted which indicates the expected completion date for the work.

Permit condition 2.3.4 Spreading slurry /wash water to own land : Once every five years an analysis of soil for phosphorous levels is required. This is due in the next twelve months .When the analysis has been done please can you forward me the results

If you have any queries regarding the inspection or the issues raised in this letter please feel free to contact me
