Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
--	--------------	-----------------------

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

- A reference to photos taken

Introduction

At 1415 on 7th Aug 2017 your site was inspected as part of the routine assessments for compliance, officers Ian James and Tony Bruten were in attendance. Thanks to Nigel Evans for taking the time to demonstrate your activities on site.

Your operation consists of a Household Waste Recycling in the Dowlais/Merthyr Tydfil area.

The parts of the permit that were reviewed were;

C1 – General Management: Staff competency/training

Permit Condition Part 1.1.1 (b) – ‘...by sufficient persons who are competent in respect of the responsibilities to be undertaken by them in connection with the operation of the activities.’

In addition reference: Natural Resources Wales publication – ‘How to comply with your environmental permit’ Part 2 – Waste Operations, Technical Competence Schemes.

It was noted that Mark Phillips is the Technically Competent Manager and a Continuing Competence Certificate was present and in date.

Action: None.

C2 – General Management: Management system & operating procedures

Permit Condition Part 1.1.1 (a)– ‘The activities shall be managed and operated: (a) in accordance with a management system which identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents and non-conformances.....’

A copy of the Management System was available and supplied electronically in advance.

Action: None.

G4 – Monitoring and records, maintenance and reporting: Reporting and notification

Permit Condition Part 3.2.1 and 4.2.2– ‘Records of all the wastes sent off site from activities, for either disposal or recovery shall be maintained.’ and ‘A summary report of the waste types and quantities accepted and removed from the site shall be made for each quarter and shall be in the format required by the agency.’

All waste returns are up to date and in compliance.

Action: None.

Observations;

1. The supervisor, Nigel, showed us around. All areas appeared well managed. There was an issue regarding the contracted service for the re-use of ‘books’ which had caused the area around the book store to ‘over-flow’ which was being reviewed.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.

Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance that could have a major environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
