1 Working out charges (you must fill in this section)

You have to submit an application fee with your application. You can find out the charge by either looking at the relevant standard rules permit page, the 'Making an application' webpage <http://www.environment-agency.gov.uk/business/topics/permitting/32318.aspx>, or the current environmental permitting charging scheme. This can be found on our guidance webpages. It sets out our charges under the Environmental Permitting Regulations 2013. Please remember that the charges are revised on 1 April each year and that there is an annual subsistence charge to cover the costs we incur in the ongoing regulation of the permit.

Note: for Opra charged Tier 3 Facilities you also need to complete an Opra profile (see section 2).

Table 1 – Working out charges

| Type of application | Summary of charges | | | |
|---|--------------------|----------------------|------------------------------|-----------------|
| | Charge identifier | Number of facilities | Charge for each facility (£) | Charges due (£) |
| low risk supplement | | | | 2470.00 |

| Total Opra charging score for waste operations | | × charge multiplier | | = |
| Total Opra charging score for mining waste facilities | | × charge multiplier | | = |
| Other charges | | | | |
| Total charges due | | | | 2470.00 |

2 Opra (does not apply to standard facilities, any other tier 2 permit applications (e.g. groundwater land spreading activities), or water-discharge or groundwater point source discharge activities)

If you are submitting a bespoke application, you must include a completed electronic copy in Excel of the current Opra spreadsheet.

For variations, full and partial surrenders you will need to submit a copy of your current Opra profile based on your existing profile, not any new profile following the variation or surrender.

For transfers you will need to submit a revised Opra profile to include your own operator performance. Note: this will not change the set transfer fee.

Tick this box to confirm that you have included the OPRA spreadsheet
