Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the surrender in part of an environmental permit.

This is a part surrender of two separate areas of land in a tier 2 standard rule permit that covers two rule sets; SR2009 No7 (storage of furnace ready scrap metal for recovery) and SR2008 No21 (metal recycling site).

Only Schedule 1 of the permit has been amended in relation to the change in the site plan, to reflect the new (reduced) permitted area.

The surrender of the area of land on the north-eastern end of the site has resulted in one of the three interceptors serving the site to be located outside of the permitted area.

Any changes made as a result of the part surrender are set out in the Schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
