### **Introductory note**

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

This is a variation of a tier 3 bespoke permit that allows the operator to operate an inert household, commercial and industrial waste transfer station with treatment activity.

This is an operator led variation to increase annual throughput from 40,000 to 100,000 tonnes per annum and include additional waste codes.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
