

Schedule 5 - Notification

This page outlines the information that the Operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	EPR/ VP3199FC
Name of Operator	Biffa Waste Services
Location of Facility	Cardiff Transfer Station, Bessemer Close, Leckwith Industrial Estate
	Cardiff CF11 8DL
Time and date of the detection	24/04/2017 14:26

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or emission of a substance not controlled by an emission limit which has caused, is causing or may cause significant pollution

To be notified within 24 hours of detection

Date and Time of the event	24/04/2017 14:26
Reference or description of the location of the event	Transfer Station Building
Description of where any release into the environment took place	Release to atmosphere
Substances(s) potentially released	Smoke generated from non-hazardous waste
Best estimate of the quantity or rate of release of substances	Unable to quantify
Measures taken, or intended to be taken, to stop any emission	Fire and Rescue Service attended site and extinguished the fire.
Description of the failure or accident.	Fire ignited in third party customer vehicle whilst on site

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Emission point reference/ source	N/A
Parameter(s)	N/A
Limit	N/A
Measured value and uncertainty	N/A
Date and time of monitoring	N/A
Measures taken, or intended to be taken, to stop the emission	N/A

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period
	24 Hours

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	N/A
Substances(s) detected	N/A
Concentrations of substances detected	N/A
Date of monitoring/sampling	N/A

Part B to be supplied as soon as practicable

Any more accurate information on the matters for notification under Part A.	The vehicle was waiting to be loaded at the time of ignition, but no material had been transferred into the trailer. All fire water was contained within the sealed drainage system, and has been removed from the site by tanker to a licenced treatment facility. All affected waste has been removed from the site.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	Fire prevention plan to be amended in light of this incident, and site procedures will also be reviewed at this time
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission	As above
The dates of any unauthorised emissions from the facility in the preceding 24 months.	None
