Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an operator initiated variation to increase the permits annual throughput to 25,000 tonnes per annum. A regulator initiated variation has also been completed to add in conditions relating to fire risk mitigation.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
