- any non-compliances identified
- any non-compliances with directly applicable legislation
- details of any multiple non-compliances
- information on the compliance score accrued inc. details of suspended or consolidated scores.
- details of advice given
- any other areas of concern
- all actions requested
- any examples of good practice.

This report should be clear, comprehensive, unambiguous and normally completed within 14 days of an assessment.

Environment officer Laoni Tye visited Smiths on the 19th June and met with Mark Evans. The visit was in response to an incident that was reported to us on the 12th June claiming that large amounts of food waste was being stored at the back of the site which was attracting hundreds of pests (seagulls).

We could not see any evidence of any food waste or sea gulls on site. Mark advised us that they sometimes had food mixed in with the municipal waste but could not recall any large amounts on site. I was told that municipal waste is removed from the site quickly which helps avoid any issues with pests.

This incident was not substantiated and therefore no further action is to be taken at this time.

Many thanks
