

VALE OF GLAMORGAN BOROUGH COUNCIL

SITE LICENCE NO.48

①

DISPOSAL SITE LICENCE

PERMIT

SHEET 1 OF 12

OUTGOING

CIVIC AMENITY/RECYCLING FACILITY
CONTROL OF POLLUTION ACT 1974
LICENCE TO DISPOSE OF WASTE

The Vale of Glamorgan Borough Council hereinafter called the "Waste Disposal Authority" in pursuance of the powers conferred on them by the Control of Pollution Act 1974, hereby licence:

DYFED DISPOSAL LTD. GREENBOWER, SLEBECH, HAVERFORDWEST

(hereinafter called "the Licence Holder") to operate a Recycling & Civic Amenity facility (hereinafter called "the Facility") on land at UNIT 55, GLUEPOT ROAD, LLANDOW TRADING ESTATE, LLANDOW, NR. LLANTWIT MAJOR, grid reference 9537, 7155 which is edged in red on the drawings attached to this Licence, being land occupied by the Licence Holder.

This Licence is granted subject to the terms and conditions set out in the Schedules attached hereto.

DATED this 22nd day of December 1992

Signed

Chief Environmental Health Officer

THE LICENCE HOLDER'S ATTENTION IS DRAWN TO THE NOTES OVERLEAF.

NOTES

These notes are for general guidance only and they do not constitute an authoritative statement of the law.

1. This Licence relates only to the requirements of the Control of Pollution Act 1974 for the deposit of waste and the use of plant or equipment subject to the Conditions set out in the Schedules and does not constitute a consent required by other legislation. In particular it is the responsibility of the Licence Holder to comply with any requirements of the HEALTH AND SAFETY AT WORK ETC., ACT 1974, THE RADIOACTIVE SUBSTANCES ACT 1960, THE TOWN AND COUNTRY PLANNING ACTS, BUILDING REGULATIONS, and ALL RELEVANT WATER PROTECTION AND PUBLIC HEALTH legislation including the provisions of the Environmental Protection Act 1990 excluding Part 2.

All discharges to sewer and watercourse have to meet the requirements of the National Rivers Authority and Water Company. Any diversion or other changes will also require National Rivers Authority or Water Company approval.

2. If the Licence Holder ceases to occupy the land specified above, then the Licence may be transferred to the new occupier after giving notice to the Waste Disposal Authority which has the right to decline to accept the new Licence Holder.
3. If the Licence Holder wishes to cancel this Licence, it must be returned to the Waste Disposal Authority, together with a notice stating that the Licence is no longer required. Cancellation of the Licence will not affect any outstanding liability of the Licence Holder under the Conditions of the Licence.

CONTRAVENTION OF LICENCE CONDITIONS

Attention is drawn to the provisions of Sections 3, 7, 9, and 16 of the Control of Pollution Act 1974. A brief resume is included below.

Section 3

Prohibits under penalty the deposit of waste, or the use of plant or equipment, otherwise than in accordance with the terms of a Licence. This Section applies to all the Conditions contained herein, including any which may be the subject of appeal to the Secretary of State under Section 10 of the Act.

Any deposit which takes place without compliance with all the Licence Conditions may lead to prosecution under this Section.

Section 7

Activities which cause pollution of water, danger to public health or would be seriously detrimental to the amenities of the locality may lead to revocation of this Licence.

Section 9

Non-compliance with any Licence Conditions may lead to the revocation of this Licence.

Section 16

The Licensing Authority is empowered to require the removal of any controlled waste deposited in circumstances where any of the Conditions contained in this Licence are not being complied with.

Penalties under Section 3

A person who contravenes Section 3 subsection (1) shall, subject to subsection (4), be guilty of an offence and liable on summary conviction to a fine of an amount not exceeding Scale 5 (currently £2,000 January, 1991), or on conviction on indictment to imprisonment for a term not exceeding two (2) years or a fine or both.

1. SCHEDULE A DEFINITIONS

In this licence except where the context otherwise requires the following expression or word shall have the meanings ascribed to them.

- 1.1 "emergency" means a case where a person has reasonable cause to believe that circumstances exist which are likely to endanger life or health or cause damage to property or pollution of water.
- 1.2 "flammable liquid" shall have the same meaning as ascribed to it by the Classification Packaging and Labelling of Dangerous Substance Regulations 1984 which includes a mixture of liquids or liquid containing solids in solution or suspension which when listed in accordance with Part IV of Schedule 1 of the Classification Packaging and Labelling of Dangerous Substances Regulations 1984, gives off a flammable vapour at a temperature not exceeding 55 degrees celcius.
- 1.3 "competent person" means a person who through training and or qualification understands the terms and conditions of this licence and is responsible for ensuring the facilities compliance with the licence.
- 1.4 "proficient person" means a person trained to understand the terms and conditions of this licence, to recognise the general descriptions of waste that may arrive at the facility, and actions to be taken to deal with such wastes and what action to take in the event of an emergency.
- 1.5 "Fly Tipping" means the unregulated and hence illegal dumping of waste material.
- 1.6 "Environmental Hazard" means the presence of waste on land which has been deposited in such a matter or in such a quantity (whether that quantity by itself or cumulatively with other deposits of the same or different substances) as to subject persons or animals to a material risk of death, injury or impairment of health or as to threaten the pollution (whether on the surface or underground) of any water supply.
- 1.7 "Authorised Officer" means an Officer authorised by the Waste Regulation Authority for the purposes of the Control of Pollution Act 1974.
- 1.8 "Operation" means the receipt, handling or removal of waste from the facility.
- 1.9 "Household Waste" shall have the same meaning as ascribed to it by the Collection and Disposal of Waste Regulations 1988 (SI 1988 No. 819) and the Controlled Waste Regulations 1992 (SI 1992 588).

- 1.10 "Recycling" means the collection and separation of materials from waste and subsequent processing to produce marketable products.
- 1.11 "Reclamation" means the collection and separation of materials from the waste stream.
- 1.12 Notwithstanding the above, words and phrases in this licence have the meaning ascribed to them by the Control of Pollution Act 1974 and its associated regulations.

Civic/Amenity Recycling
Facility - Llandow Trading Estate, Llandow.

LICENCE NO 48

SHEET 6 OF 12

2. SCHEDULE 1: TYPES OF WASTE

Types of waste materials acceptable at the facility and the maximum quantities stored shall consist only of the following solid wastes:

(Examples of the types of waste that may be the subject of this licence are given below).

Unit 55, Gluepot Road, Llandow Trading Estate

TYPE OF WASTE

QUANTITY

Household Waste	(5 No. 14 c/yd skips)
Construction Waste	(1 No. 8 c/yd skips)
Household Waste	(1 No. 35 c/yd skip)
Recycled Metal	(1 No. 14 c/yd skip)
Recycled Paper	(3 No. Paper Banks)
Recycled Glass	(2 No. Glass Banks)
Recycled Textiles	(1 No. Textile Bank)
Recycled Oil	(1 No. Oil Tank (1.83m. x 1.24m x 1.24m))

3. EXCLUSIONS

Notwithstanding the generality of the types of waste specified in this Schedule the following wastes shall be specifically excluded from delivery to the facility without the prior written approval of the Waste Disposal Authority.

- (a) Controlled waste being defined as "special waste" in the Control of Pollution (Special Waste) Regulations 1980 and any subsequent amendments, except those listed in Schedule 1.
- (b) Substances within the Control of Radioactive Substances Act 1960 and subsequent amendments.
- (c) Percussives and explosives and other substances with similar characteristics, excepting where such wastes are in such a form or state where the percussive or explosive properties are and will remain ineffective;
- (d) Any waste containing substances listed in the Highly Flammable Liquids and Liquefied Petroleum Gases Regulations 1972.

4. WORKING PLAN

- 4.1 The statement of intended methods of operation and drawings contained within the document entitled "Site Licence Application Working Plan" submitted as part of the application for this Licence shall be referred to as the working plan.
- 4.2 Prior to any operations taking place under the terms of this Licence the Working Plan shall have been approved in writing by the Waste Disposal Authority. The Licence Holder shall obtain written approval from the WDA for any proposed change in the actual conduct of the operations from the proposals approved in the working plan, as altered by any previous change approved by the Waste Regulation Authority, before such change is implemented.
- 4.3 Any reference in this Licence to the Working Plan shall include a reference to any modification to the statement or the drawings which have been approved in writing by the Waste Disposal Authority as appropriate.
- 4.4 Subject to the terms of this Licence, the site shall be operated in accordance with the working plan.

5. Preparation Works

- 5.1 Lighting in accordance with the Working Plan shall be provided at the facility for those operations which are to be carried out during the hours of darkness as defined by the statutory lighting up times published by the Science and Engineering Research Council.
- 5.2 An identification board of durable material and finish shall be displayed in a prominent position at the facility. This shall give the name, address and telephone number of the Operator and of the Waste Disposal Authority, the hours of operation and the telephone numbers of personnel to contact in the event of an emergency.
- 5.3 Gates, walls and fencing shall be provided at the facility and maintained at all times in accordance with the working plan. The gates shall be locked outside operating hours and at any time the site is left unattended in order to prevent unauthorised access deposit on, or removal of materials from the facility. The fencing gates and walls shall be inspected daily by the competent person and any damage observed shall be reported immediately to the Director of Housing and Technical Services.
- 5.4 In accordance with the detail of the working Plan a site office, equipped with toilet, washing facilities and a telephone shall be provided and maintained at the facility.

- 5.5 All reasonable precautions shall be taken to prevent unauthorised access to the site and/or fly-tipping.
- 5.6 The yard area of the facility shall be surfaced and maintained in accordance with the working plan. Hard surfaces shall be cleaned as necessary and when requested by the Waste Disposal Authority.
- 5.7 Site drainage arrangements shall be constructed and maintained in accordance with the working plan so that water does not accumulate at the facility. These shall include interception of contaminated surface waters and spillages, to prevent contamination of the drainage system, or any water course or ground water.
- 5.8 Provision shall be made to deal with any unacceptable waste delivered to or left at the facility in accordance with the working plan. Such waste shall be removed from the facility as soon as practicable or within such a time as may be agreed with the Waste Disposal Authority and taken for disposal.
- 5.9 Waste material and other materials segregated for resale or reuse shall be loaded, unloaded, sorted and stored only in the designated storage areas or compactors indicated in the working plan.
- 5.10 If required by the Waste Disposal Authority, any waste or other material segregated for reuse or resale shall be removed forthwith, if, according to the Waste Regulation Authority, it is likely to give rise to pollution of water, danger to public health or be seriously detrimental to the amenities of the locality.
- 5.11 Empty skips shall be stored only in the areas indicated in the working plan.
- 5.12 Provisions shall be made at the facility for the loading and unloading of vehicles transporting wastes and residues to and from the facility in accordance with the working plan.
- 5.13 Facilities shall be provided in accordance with the working plan for storing and maintaining equipment used at the facility.
- 5.14 Tanks or drums used for the storage of fuels shall be contained in a bunded compound whose volume is at least 10% of the total volume or 110% of the volume of the largest storage vessel whichever is the greater. Storage vessel shall be constructed of material suitable for the liquids they contain and labelled to show their contents. They shall conform, where necessary to all relevant safety and construction standards and shall be installed at a location and to specification in accordance with the working plan.
- 5.15 Measures in accordance with the working plan shall be taken to prevent damage to all pipework, valves, pumps and storage tanks.
- 5.16 A Diary/Log Book shall be provided and retained on site. The Diary/Log Book shall be available for the Licence Holder, accredited Agent or employees and for Authorised Officers of the Waste Disposal Authority to read or record comments pertaining to the activities at the facility.

6. OPERATIONS

- 6.1 During all operational and maintenance periods the facility shall be supervised by a competent person.
- 6.2 During all operational and maintenance periods the facility shall be manned by a competent person or proficient person who is capable of ascertaining, in accordance with the terms of the working plan and having regard for information supplied with waste materials, that only waste permitted by the licence are deposited at the site.
- 6.3 The types of waste and maximum quantities stored in the facility shall consist of those specified in Schedule B of this licence. No waste other than waste for reclamation or recycling shall remain at the facility for longer than (48 hours).
- 6.4 There shall be no processing or treatment of any waste at the facility except for the sorting of materials suitable for recycling in accordance with the working plan.
- 6.5 Waste shall be delivered to and removed from the facility only on (Monday) to (Thursday) between the hours of 0900 - 1700 and (Fridays) between the hours of 0800 - 1600 and (Saturdays and Sundays) between the hours of 0800 - 1200. Except in cases of emergency, no delivery or removal of waste shall take place outside these hours or on Sundays or Bank Holidays, without prior approval of the Waste Regulation Authority. All circumstances of emergency shall be reported forthwith to the Waste Regulation Authority.
- 6.6 Wastes shall be sprayed with deoderiser and/or dust suppressant at times and locations in accordance with the working plan.
- 6.7 No more than 143 cubic metres of solid waste other than waste for reclamation, shall be stored within the area indicated on the plan attached to this licence.
- 6.8 A record shall be kept of the types and quantities of waste delivered to, and removed from, the facility, giving details of the origin and final destination, including materials inadvertently delivered to and subsequently removed from the facility. The record shall comprise full details, as required, on forms as agreed with the Waste Disposal Authority, and copies shall be sent to the Waste Disposal Authority at a frequency as may be requested by the Waste Disposal Authority. These records must be made available to any Authority Officer of the Waste Disposal Authority for inspection at the facility at any reasonable time.
- 6.9 Surface water shall be removed and disposed of from the bunded compounds (referred to in Condition 16) when necessary and at the request of the Waste Disposal Authority.

- 6.10 No waste material shall be burnt within the boundaries of the facility. Any fire occurring within the confines of the facility shall be treated as an emergency and immediate action shall be taken to extinguish it. All outbreaks of fire shall be reported immediately to the Waste Disposal Authority. Fire fighting equipment and emergency water supplies shall be provided in accordance with the working plan and regularly maintained.
- 6.11 Cleaning chemicals and reagents shall be stored and segregated according to compatibilities and in accordance with the working plan.
- 6.12 Measures in accordance with the working plan shall be taken to ensure that mud, debris, or any other material is not deposited on the roadway by vehicles leaving the facility. These measures shall include the cleaning of the yard, entrance and public highway leading from the facility.
- 6.13 The Facility shall be inspected daily for the presence of vermin and insects, and control measures shall be taken as detailed in the working plan to deal with any vermin or insects found. Records of these inspections and any control measures undertaken, including types and quantities of pesticides used shall be kept permanently on site and available for inspection.
- 6.14 Standby operating and disposal arrangements in accordance with the working plan shall be implemented in the case of an emergency at the facility. The Waste Regulation Authority shall be immediately informed whenever these arrangements are implemented.
- 6.15 Litter shall not be allowed to accumulate at the facility. Any litter or fly tipped material which accumulates at the facility or its immediate environs shall be gathered and disposed of in such a way so as to prevent pollution of water, danger to public health or be seriously detrimental to the amenities of the locality.
- 6.16 Measures, including proper maintenance and use, shall be undertaken to control the noise of machinery and vehicles operating at the facility to ensure it is not seriously detrimental to the amenities of the locality.

- 6.17 In the event of cessation of operations, whereby waste delivered to the facility is required to be transferred or diverted elsewhere, the Waste Regulation Authority shall be notified forthwith.
- 6.18 A copy of any notice or instruction received in respect of the facility from any authority, other than the Waste Regulation Authority, which in any way relates to the use of the facility, shall be forwarded for information to the Waste Disposal Authority within three working days of the receipt of such notice or instruction.
- 6.19 The terms and conditions of this licence shall be made known to the proficient person and to any person who is given responsibility for the management or control of the facility and a copy of these terms and conditions shall be kept available at the facility and displayed in a prominent position.
