There are 3 permits active within the boundary for EMR, Roath Dock. This permit, reference EPR/ZP3795FD is a tier 3 bespoke permit relating to the depollution and dismantling of vehicles (authorised treatment facility).

The inspection on this day consisted of a site walk around and discussion with the operator. During the inspection there were no waste vehicles on site being depolluted. The depollution unit is undercover and located in a separate area to other waste storage relating to the other permits located on the site. All associated wastes (i.e. hazardous oils, coolants etc) were contained within an undercover bunded area to the right of the depollution area. The undercover depollution unit and associated waste storage is situated on a concreted area. At the time of the inspection all waste was appropriately contained.

The waste paperwork and management systems relating to this permit have not been assessed as part of this inspection.

If you have any questions with regard to this report form please contact myself on the details above.

Kind Regards

Kelly
