CCS scores can be consolidated or suspended, where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

environment officer Laoni Tye visited site on the 19th November 2015 to conduct a general site inspection. The weather was cold and dry but it had been very windy throughout the day. Waste was being accepted at the time of the visit. There were no breaches recorded on site and it appeared to be well maintained and managed. However we have the following comment from our visit:

The working plan states that paints and other household chemicals will be stored in a lockable, bunded, chemsafe unit. When on site we can see that they are stored temporarily in waste bins before being taken into containers for storage. The waste bins are not providing any secondary containment which could cause a pollution if there was a spill. Please store the paints and chemicals in a lockable, bunded chemsafe unit as specified in your working plan.

If you have any comments or questions please let me know.

Many thanks,

Laoni Tye
