### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an administrative variation to change the current wording of the EWC 19 12 12 code from:

'other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11 (consisting of glass fines only)'

to

'other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11 (consisting of contaminated glass waste only)'.

The purpose of this is to include contaminated material in the form of metal (bottle tops), plastic (labelling, lids off bottles and straws) and paper (labelling) into the waste description.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
