Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
C4 - General Management - Storage, handling labelling and Segregation	C3	2.1.1

KEY: See Section 4 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **N** = Not Assessed, **X** = Action only

Number of breaches recorded	1	Total compliance score (see section 5 for scoring scheme)	4
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

- Any examples of good practice
- A reference to photos taken

Site inspection with NRW officers Alex Bowder and Will Powell, and Siteserv Recycling representatives Nigel England, and Carl Jones. Weather was warm and dry during visit.

Breaches

C4 – Management - Storage, Handling, Labelling and segregation;

Breach of condition 2.1.1, table :

“All wastes unless otherwise specified shall be stored and treated inside a building upon an impermeable surface with sealed drainage”

Non-specified waste stored outside the building (see “Schedule 6 – Interpretation” of permit for definition of building) as building was several damaged and removed.

Category 3 breach

Actions since last inspection

Some of the mixed general waste around the back entrance has been removed. The pile has been split into two. The rest of the waste remains onsite.

Site inspection

A quick site inspection to look at progress made onsite. The pile of waste by the site entrance had been split in two, and the waste up against the push wall was due to go out that week. The rest of the waste from this pile had been pushed up against the end of the covered pile of mixed general waste. The waste material in this pile looked smaller/more fragmented than the other wastes.

Some Siteserv bin bags looked new onsite – however this was from a litter pick. There was a lot of very fine, light weight material that looked to have blown off site. Siteserv will ensure the area outside the boundary is swept.

Nigel England anticipates that all the waste will be cleared by end of July.

Waste due to leave site that week

The waste pile has been split, and now part of the pile joins the covered pile

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

We will now consider what enforcement action is appropriate and notify you, referencing this form.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			
C4	C3	Remove all unspecified waste, or store material within a building that minimises emissions. As agreed 31/03/16 - one pile to be removed by end of April, another by end of May, and remaining waste by end of June	31/05/2016

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
