Natural Resources Wales considers that the following condition of the environmental permit is being contravened:

Condition 2.1.1 with reference to Schedule 1 table S1.1- All wastes unless otherwise specified shall be stored and treated inside a building upon an impermeable surface with sealed drainage.

Because:

Fire damaged waste, mixed general waste and other non-specified wastes are being stored outside of the building. The building onsite has been significantly damaged, it is not fit for purpose and does not meet the criteria set out in the permit as follows:

Building - a construction that has the objective of providing sheltering cover and minimising emissions of noise, particulate matter, odour and litter.

In its current state the building on site does not meet those objectives.

You are required to take the steps set out in Schedule 1 by the date(s) specified in order to remedy the contravention.
