Thank you for your application received on 14/01/2019. The following is to confirm our conversation of 22/01/2019.

Unfortunately the declaration is not complete to say this is a valid application. Please make sure a relevant person completes this and send it back to us. Relevant people means each applicant, and in the case of a company, a director, manager, company secretary or any similar officer or employee. In the case of a Limited Liability Partnership (LLP), it includes any partner.

We also need to ask you for some more information before we can do any more work on the application. Please would you:

- provide us with the National Grid Reference (NGR) for the discharge point. The discharge point is considered as the first point at which the effluent exists the treatment system and enters the environment.
- provide us with more information to question 6d in Form B6.5. You have said that the discharge reaches the watercourse via a surface water sewer, however, you have not provided an NGR for the entrance point.
