### Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
C4 - General Management - Storage, handling labelling and Segregation	C3	1.1.1 (IMS 14-03)

**KEY:** See Section 4 for breach categories, suspended scores will be indicated as such.

**A** = Assessed or assessed in part (no evidence of non-compliance), **N** = Not Assessed, **X** = Action only

Number of breaches recorded	1	Total compliance score (see section 5 for scoring scheme)	4
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

## Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

This CAR form is in response to an e-mail submitted to NRW by John Edwards on 16th June 2016 and subsequently a desk based audit of the EMS.

Within the e-mail and attached responses to recently issued CAR forms Atlantic have confirmed that the fines currently being stored within the transfer station are not those resultant from the processing of stockpile 1. Photographic evidence was also submitted to back this up.

However, within the justification Atlantic have confirmed that the MRF fines have been on site since before Christmas and so have been stored for a period in excess of 6 months.

### **C4-General Management-Storage, handling, labelling and segregation. Category 3 breach against section 1.1.1 of the permit held.**

This breach has been scored for the period of time that the MRF fines have been stored on site. The management system held for the site within IMS14-03 states that:

"Combustible fines will only be stored on site for a maximum time period of 1 month."

The fines that are on site are comprised of high levels of combustible wastes as can be seen in the images attached taken of the waste during an inspection carried out on 26th April 2016. These wastes have therefore been stored on site by far in excess of the timescales allocated during the management system and now in excess of timescales provided by the FRS and NRW for the safe storage of combustible wastes.

**ACTION:** Please ensure that these fines are removed from site and are taken to a facility that are permitted to accept them before 1st July 2016. In addition to this, please ensure that any future fines that are produced on site are removed within the 1 month timescale provided within the IMS. The excessive storage of waste on site is clearly an issues across many waste streams, please improve waste management practices to avoid future accumulations of waste.

With regard the comments on the 19th May 2016 CAR form, you are correct the 2103 figure is a typographical error and should have read 2013.

### Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

We will now consider what enforcement action is appropriate and notify you, referencing this form.

### Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			
C4	C3	Remove the waste from site	01/07/2016

## Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

**See our Enforcement and Civil Sanctions guidance for further information**

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

### Non-compliance scores and categories
