Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Tony Bruten regulating officer visited the site on 27th July 2016. and met with manager George Harvey.

There was some chipping of wood taking place on my arrival and dust levels appeared fine, this operation had ceased prior to my walking past the shredder but there did not appear to be any excess dust at that time.

The 3 stockpiles had a clear fire break between each pile and the volumes of timber on site appeared to be within the agreed limits of 4000 tonnes.

George indicated that they were expecting another ship in the week after next and were now preparing chipped wood for that load.

There were no breaches identified during my visit.

Coalyard site

During my visit I also visited the coalyard site which is the area on the docks used to store the fire damaged wood. This is not a permitted site but is being monitored by us to ensure environmental compliance whilst the site is being cleared. the date for completion of clearance of the site is 31st December 2016.

I expressed some concern with George Harvey that the site would not be cleared by the agreed date, however he assured me that the company had now purchased another lorry to help increase removal of the burnt wood to landfill and were aiming at achieving removal of 1000 tonnes per week. I reminded him of the enforcement obligations on the company to achieve the agreed date for clearance of the site.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.
Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
