Dear Mr Hallett,

**ENVIRONMENTAL PROTECTION ACT 1990  
WASTE MANAGEMENT LICENSING REGULATIONS 1994  
ISSUE OF WASTE MANAGEMENT LICENCE NO. EAWML 30328  
T R H SALVAGE RECOVERY**

I have pleasure in enclosing Waste Management Licence no.EAWML 30328 in respect of the above. You are advised to read this letter carefully as it contains information important to your business. A waste management licence is an important document and you should keep the original in a safe place. You must ensure that both yourself and relevant employees are familiar with the requirements of the licence and that a copy is available on site. To facilitate this you may wish to make photocopies of the original.

If you do not agree with the conditions of this licence you may appeal to the National Assembly for Wales. Before lodging such an appeal you should first discuss the matter with the Environment Agency and should refer to the guidance notes appended to the licence.

I am obliged to use this opportunity to advise you that it is an offence to fail to comply with any condition of your licence or to keep, treat or dispose of waste in a manner likely to cause pollution of the environment or harm to human health.

In addition I must remind you that the issue of this licence does not lessen the need to comply with other legislation, notably Health & Safety legislation and other aspects of environmental legislation.

**Licence Transfers, Modifications and Surrenders**

A licence can only be transferred to another holder on application to the Environment Agency by both parties. Similarly, variation of the conditions of the licence and surrender of the licence can only be achieved following application to, and approval by, the Environment Agency. You should be aware that the fee is payable for the above application in accordance with the Fees and Charges Scheme for that year. In the event of you considering a transfer, or a modification you are strongly advised to enter into preliminary discussions with the Agency in advance of any formal application.

## **Public Registers**

The Environment Agency is also required to maintain comprehensive registers of information and correspondence relating to the licensing process and the supervision of licensed activities. These registers are open for scrutiny by the public and contain, for example, copies of licences, working plans, monitoring data, legal notices and copies of inspection reports.

## **Fees and Charges**

Holders of waste management licences are required to pay annual subsistence fees to the Environment Agency based upon the activities by the licence under Section 41 of the Environment Act 1995 until the licence is either transferred or surrendered. You will shortly receive an invoice for the subsistence fee which is payable for the remainder of this financial year. This will have been calculated pro-rata based on the date of issue of the licence. In future years you will be invoiced for subsistence fees at the beginning of each financial year.

## **Waste Returns**

Condition 6.2 of the licence requires you to make quarterly returns of waste inputs and outputs. Please find form WMS1 enclosed for this purpose, together with a guidance note, a list of county councils within the region and a table of conversion factors for volume to weight (for use in the absence of a weighbridge).

If you have any queries about your licence or the matters described above then please do not hesitate to contact me. I would be grateful if you could return the enclosed acknowledgement slip at your earliest convenience.

Yours faithfully,

Lucy Thomas
