Section 1 - Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation and any action you may need to take are given in the "Detailed Assessment of Compliance" (section 3). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS scores can be consolidated or suspended, where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

KEY: C1, C2, C3, C4 = CCS breach category (* suspended scores are marked with an asterisk), A = Assessed (no evidence of non-compliance), N = Not assessed, NA = Not Applicable, O = Ongoing non-compliance – not scored

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	---	---

If the Total No Breaches is greater than zero, then please see Section 3 for details of our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- the part(s) of the permit that were assessed (e.g. maintenance, training, combustion plant, etc)
- where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- any non-compliances identified
- any non-compliances with directly applicable legislation
- details of any multiple non-compliances
- information on the compliance score accrued inc. details of suspended or consolidated scores.
- details of advice given
- any other areas of concern
- all actions requested
- any examples of good practice.
- a reference to photos taken

This report should be clear, comprehensive, unambiguous and normally completed within 14 days of an assessment.

Alex Bowder met with Janet Rawlings on Wednesday 19th November at 10:30 who accompanied him around Unit 1 Blackwood Business Park to conduct a site inspection of Roydon Bottle Recycling Ltd. The weather was heavy clouds with rain.

Roydon Bottle Recycling Ltd have recently been granted a variation to a bespoke permit for a purpose built plastic reprocessing plant. The variation involved adding the 19 12 04 (plastic and rubber) waste code.

Following each site visit we will produce a Compliance Assessment Report like this one checking that this permit is adhered to. To inform the business you may be breached on compliance if permit conditions are not abided by on a Category 1 – 4 basis:

- 1 – Major, serious persistent and/or extensive impact or effect on the environment, people/property
- 2 – Significant impact or effect on the environment, people/property
- 3 – Minor impact or effect on the environment/people/property
- 4 – Substantiated incident with no impact

Alex Bowder was shown around the Unit and all parts of the permit were assessed. Janet Rawlings and another individual named Phil hold the WAMITAB qualification and are the Technically Competent Managers (TCM) for the site.

The plastic bottle waste gets transported from Manchester in truckload bails to the front of the unit ready for treatment. Roydon are currently receiving around two loads a day averaging about 200 tonnes a week which is within the annual throughput of 25,000 tonnes. Alex was shown the processing line from start to finish including the different separation stages of the plastics to prevent PVC contamination in the end product.

Was shown the various hot/cold washing systems and neutralising tanks. Chemicals were in secure purpose built containers and removed once emptied at the side entrance of the unit.

The paper labelling waste is taken by Biffa and goes to landfill. The unit is fairly large with plenty of room for manoeuvre with the bailed plastic stacked neatly and safely. The housekeeping on site was generally good, large unit with walkway outlined around unit. No issues apparent with drainage/infrastructure.

Environment Management System (EMS)

An extensive list of operating procedures is available on file for all equipment and processes. Staff were wearing appropriate personal protection equipment and aware of the operating procedures.

Waste Returns

Waste returns are being completed and submitted every quarter. All material was stored within the permitted boundary and on the impermeable concrete surface – all volumes were within the permit limit. Just for reference transfer notes should be kept and retained for two years.

Good overall standard, I look forward to the next visit. If you have any questions please contact me on 0300 065 3394.

Many thanks,

Alex

This form will report compliance with your permit as determined by an NRW officer		
Site	Roydon Bottle Recycling Ltd	Permit 900063
Operator/ Permit	Roydon Bottle Recycling Ltd	Date 18/11/2015

Section 3- Enforcement Response	Only one of the boxes below should be ticked
You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.	
Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.	☐
In respect of the above non-compliance you have been issued with a warning. At present we do not intend to take further enforcement action. This does not preclude us from taking additional enforcement action if further relevant information comes to light or offences continue.	☐
We will now consider what enforcement action is appropriate and notify you, referencing this form.	☐

Section 4- Action(s)			
Where non-compliance has been detected and an enforcement response has been selected above, this section summarises the steps you need to take to return to compliance and also provides timescales for this to be done.			
Criteria Ref.	CCS Category	Action Required/Advised	Due Date
See Section 1 above			

Section 5 - Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- advise on corrective actions verbally or in writing
- require you to take specific actions in writing
- issue a notice
- require you to review your procedures or management system
- change some of the conditions of your permit
- decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you.

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- ensure you comply with other legislative provisions which may apply.

Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance which could have a major environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
C3	A non-compliance which could have a minor environmental effect	4
C4	A non-compliance which has no potential environmental effect	0.1

Operational Risk Appraisal (Opra) - Compliance assessment findings may affect your Opra score and/or your charges. This score influences the resource we use to assess permit compliance.

Section 6 – General Information

Data protection notice

The information on this form will be processed by the Natural Resources Wales (NRW) to fulfill its regulatory and monitoring functions and to maintain the relevant public register(s). The NRW may also use and/or disclose it in connection with:

- offering/providing you with its literature/services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law and taking any resulting action
- preventing breaches of environmental law
- assessing customer service satisfaction and improving its service
- Freedom of Information Act/Environmental Information Regulations request.

The NRW may pass it on to its agents/representatives to do these things on its behalf. You should ensure that any persons named on this form are informed of the contents of this data protection notice.

Disclosure of information

The NRW will provide a copy of this report to the public register(s). However, if you consider that any information contained in this report should not be released to the public register(s) on the grounds of commercial confidentiality, you must write to your local area office within twenty working days of receipt of this form indicating which information it concerns and why it should not be released, giving your reasons in full.

Customer charter

What can I do if I disagree with this compliance assessment report?

If you are unable to resolve the issue with your site officer, you should firstly discuss the matter with the officer's line managers. If you wish to raise your dispute further through our official Complaints and Commendations procedure, phone our general enquiry number 0300 065 3000 (Mon to Fri 08.00–18.00) and ask for the Customer Contact team or send an email to enquiries@naturalresourceswales.gov.uk.
