Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

On 11/04/2018 Environment Officer Craig Coleman came to site to check the status of the site, as it was scheduled for an audit on the ELV process to assess the management and compliance with The End-of Life Vehicles Directive 2000/53/EC. Having spoke to Mr Perry on the phone he has stated that the site was not currently depolluting vehicles and he was maintaining the permit as he may return to this activity in the future. Having attended the site I can confirm that the site is currently not active in any depollution processes.
