NG15 OED

Our ref: PAN-001908

Date: 18/09/2017

Dear Miss McCabe,

We need more information about your application

Application reference: AP3337HF

Unfortunately I need to ask you for some more details before I can decide whether it's duly made or not.

Please would you provide us with more information as detailed below:

- The multiplier used to determine your charge was incorrect. The multiplier that should be used was 57. Please could you pay the remainder of the fee which is £75.
- I am finding it difficult to locate the emission points on the layout plan, please could confirm the location of these points on the layout plan?
- A summary of your Environmental Management System (EMS) must be included in your application and referenced in the answer to this question. The summary should clearly state the plan for including the new extrusion line in you EMS.
- Please provide a H1 Assessment for the emissions that will be coming from the extrusion plant.

Please reply within 10 working days from the date of this letter. If we don't hear from you we may return your application.

If you email or write to us please quote the application reference on any correspondence and send it to the relevant address.

When we receive the missing items we will continue to check the details in your application. If there's enough for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter. If you have any questions please contact me.

Yours sincerely

Lewis Evans
