Variation number  
EPR/AP3337HF/V005

Permit number  
EPR/AP3337HF

# **Llay Feed Mill**

## **Permit number EPR/AP3337HF**

### **Introductory note**

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

The operator is adding an extrusion plant to their existing facility which will produce 120 tonnes per day of poultry feed. The plant and associated equipment will consist of 3 new silos to store raw and processed material, a grinder, conditioner, extruder and cooler. As part of the proposed changes the existing building will be extended to accommodate the new plant and the wheel wash and washout facility will be relocated to a new area of land, extending the current site boundary which will also incorporate a new car parking area.

There will be three new emission points to air from the grinding process (A14), extrusion (A15) and cooling process (A16). There will be two new emission points to surface water for roof water from the extruder plant building (W4) and new car parking area (W5). There will be one new emission point to sewer (W3) as a result of the relocation of the wheel wash facility. Emission point A13, the diesel jet wash exhaust will also be relocated.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

<b>Status log of the permit</b>		
<b>Description</b>	<b>Date</b>	<b>Comments</b>
Application EPR/RP3835SY/A001	Duly made 22/04/2005
