Re: Environmental Permitting (England and Wales) Regulations 2010, Permit Number EPR/AP3136UA, Variation Application Number EPR/AP3136UA/V004

Dear Sirs,

Dragon LNG Limited ("Dragon") is seeking approval from Natural Resources Wales ("NRW") to extend the deadline for Permit Improvement Condition (IC) 9.9 from 30/06/17 to 31/12/17.

Relevant sections of the Permit are reproduced here for ease of reference:

- **Section 2.4.1:** *The operator shall complete the improvements specified in Schedule 1, Table S1.3 by the date specified in that table unless otherwise agreed in writing by Natural Resources Wales.*
- **IC 9.9 in Table S1.3 'Improvement Programme Requirements'**
The Operator shall implement and install physical improvements as detailed in the energy and efficiency improvement plan submitted to NRW in IC9.8, from the date approved by NRW, to maximise energy efficiency from the installation specifically at low or zero send out operating conditions, unless otherwise agreed in writing by NRW.
- **Table S1.3 - Date is 30/06/17**

Main Road, Waterston, Milford Haven, Pembrokeshire, SA73 1DR. Reg. No. 4562711

T: +44 (0)1646 691730 F: +44 (0)1646 691731 E: info@dragonlng.com W: www.dragonlng.co.uk

The physical improvement that Dragon has chosen to implement in order to comply with IC 9.9 is the construction of a Reliquefaction Plant ("RP"). The RP will manage the boil off gas returning it to the tanks as LNG and so negate the need for the continued operation of the cogeneration plant ("Cogen") as currently designed.

Unforeseen delays to the project mean that the RP will not be commissioned and operational by the due date of 30th June 2017. Whilst it is very much within the interest of Dragon to complete the project as soon as possible, it is considered prudent to seek an extension until 31st December 2017.

I would be grateful if you could confirm approval in writing, as ever if you require any other information please do not hesitate to ask.

Yours faithfully,

A handwritten signature in black ink, appearing to read "P. Howells", written over a light blue horizontal line.
