Schedule 5 - Notification

These pages outline the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	BV3715IL
Name of operator	SCA Hygiene UK LTD.
Location of Facility	Chester Road, Funt CH65PU
Time and date of the detection	21 JULY 2013

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or emission of a substance not controlled by an emission limit which has caused, is causing or may cause significant pollution

To be notified within 24 hours of detection

Date and time of the event	21 JULY 2013 12:56
Reference or description of the location of the event	At 12:56 a fire started on PM2 in the reel end
Description of where any release into the environment took place	Air (Smoke) + water to WI
Substances(s) potentially released	Treated water to WI. Exceeded daily limit of 2200 m ³ (was 2545 m ³).
Best estimate of the quantity or rate of release of substances	345 m ³ (but all in consent - so no pollution to Estuary)
Measures taken, or intended to be taken, to stop any emission	Fire water contained on site and treated through effluent plant.
Description of the failure or accident.	Fire.

(b) Notification requirements for the breach of a limit

To be notified within 24 hours of detection unless otherwise specified below

Emission point reference/ source	WI
Parameter(s)	2200 m ³
Limit	2200 m ³
Measured value and uncertainty	2545 m ³ (MCERTS meter)
Date and time of monitoring	continuous
Measures taken, or intended to be taken, to stop the emission	fire water treated through ETP before discharge off site

Variation and Consolidation
