

Mr I Smith
SCA Hygiene Products UK Ltd
Oakenholt Mill
Chester Road
Flint
CH6 5PU

Our ref: WPCC 4110

Your ref:

Date: 30th October 2015

Dear Mr Smith

We need more information about your application

Application reference: EPR/BV3715IL/V007
Operator: SCA Hygiene Products UK Ltd
Facility: Oakenholt Mill, Chester Road, Flint, CH6 5PU.

Thank you for your application received on 2nd October 2015.

I need to ask you for some more information before I can decide whether it is duly made or not. The information required is summarised below:

Application Form C2

Q4d1 – The response to this question indicates that the site holds a nuclear site licence. Please confirm if this response is correct.

Q5c – No response given. Please provide a non-technical summary of the application.

Application Form C3

Q6a – e – Please provide a response for these questions.

Application Supporting Information

The “Environmental Considerations” section of the document entitled “Oakenholt Site – PM2 Dust Extraction System” states that the maximum noise level associated with the new dust extraction system exhaust will be 80dBA at 1.5 metres from the exhaust point.

Please provide the following additional data in relation to predicted sound levels (in dBA) associated with the new dust extraction system exhaust and its overall impact on noise from the installation:

- (i) the predicted sound level from the new dust extraction system exhaust **at** the nearest sensitive receptors surrounding the installation. This predicted sound level shall consider any element of tonal noise which may be associated with the new dust extraction system exhaust;

- (ii) the total predicted sound level from the entire installation at the same nearest sensitive receptors, when the new dust extraction system exhaust is operational;
- (iii) The predicted sound levels in item (ii) above shall be compared to existing sound levels from the installation at the nearest sensitive receptors. Any differential in decibels at the nearest sensitive receptors occurring as a result of the predicted sound levels from the new dust extraction system exhaust, shall be stated.

If you need advice about how to complete the forms, please contact your local area office. Call 0300 065 3000 and ask to speak to your local area office or your site officer.

Guidance on preparing an Environmental Permit application is provided on our website at <https://naturalresources.wales/apply-for-a-permit/installations/?lang=en>

Please reply within 10 working days from the date of this letter. If we don't hear from you we must return your application and fee.

If you email or write to us please quote the application reference EPR/BV3715IL/V007 on any correspondence and send it to the relevant address below.

When we receive the missing items we will continue to check the details in your application. If there's enough for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

If you have any questions please phone me on (03000) 654358 or email anna.lewis@naturalresourceswales.gov.uk.

Yours sincerely

Anna Lewis
Principal Permitting Officer
