Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Section 2 – Compliance Assessment Report Detail

- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances

South Hook LNG are required to report their water discharge results every 6 months and their air releases annually to NRW.

There were no non-compliances to air and water (E1 and E2) with the permit emission limit values and the monitoring was carried out to the required standards and frequencies (G1).

This report (SLNG-TS-ENV-C-564) was made on time (24/1/2019), using the required formats and information (G4). Due to a more accurate and lower energy usage figure being available after the original submission, a revised version was submitted (SLNG-TS-C-564b) was made on 4/2/2019.
