

Permit Number: **EPR/PP3733WW**

Operator: **WTI (UK) Limited**

Facility: **Parc Adfer Energy Recovery Facility**

Form Number: **Performance 1** Date : **dd/mm/yy**

Reporting of Performance Parameters for the period from: **DD/MM/YYYY to DD/MM/YYYY**

Parameter	Total Value	Units	Specific Value	Units
Electrical energy imported from national grid		MWh		MWh/tonne of waste co-incinerated (dry basis)
Electrical energy exported to national grid		MWh		MWh/tonne of waste co-incinerated (dry basis)
Electrical energy used at the installation		MWh		MWh/tonne of waste co-incinerated (dry basis)
Fuel oil consumption		tonnes		tonnes/tonne of waste co-incinerated (dry basis)
Mass of Bottom Ash (including boiler ash) produced		tonnes		tonnes/tonne of waste co-incinerated (dry basis)
Mass of APC residues produced		tonnes		tonnes/tonne of waste co-incinerated (dry basis)
Urea consumption		tonnes		tonnes/tonne of waste incinerated (dry basis)
Activated Carbon consumption		tonnes		tonnes/tonne of waste incinerated (dry basis)
Lime consumption		tonnes		tonnes/tonne of waste incinerated (dry basis)
Water consumption		m ³		m ³ /tonne of waste incinerated (dry basis)
Periods of abnormal operation		-		Number of occasions in the reporting period.
Periods of abnormal operation		-		Total cumulative hours for current calendar year

Reporting of Annual Production / Treatment for the period from: DD/MM/YYYY to DD/MM/YYYY

Parameter	Value	Units
Total Waste Received ^{1]}		Tonnes
Total Waste incinerated		Tonnes
Electrical Energy Generated		MWh
Electrical Energy Exported		MWh
Electrical Energy Used on Installation		MWh
Thermal energy produced e.g. steam		MWh
Thermal energy used on installation		MWh
Total bottom ash (including boiler ash) produced		Tonnes
Total APC residue produced		Tonnes

1. All waste delivered to the installation, including waste which is subsequently rejected.
