Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

On the 13th of August, Natural Resources Wales undertook a site visit to check compliance on abstraction licence WA/064/0004/002 at SH 78872 19800 at Nant Helygog at Helygog, Brithdir, near Dolgellau, Gwynedd.

Although there was an impounding structure there, it appeared to be derelict and with no means of abstracting.

Please could the licence holder confirm via email or writing what the status the Hydro Electric Scheme is at, and whether they are abstracting for power generation or not.

Please email the local water resources officer to confirm or deny these findings

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.
