

Maelor Foods Limited
Permit Application Number PPN-00003
Additional information for Form B3

Table 3c – Types and amounts of raw materials Installation Name			Maelor Foods	
Capacity				
Schedule 1 activity	Description of raw material and composition	Maximum amount (tonnes)	Annual throughput (tonnes each year)	Description of the use of the raw material including any main hazards (include safety data sheets)
Section 6.8A(1) (b)	Live birds – average weight 2.4kg	1 million birds/week = 2,400T/week	Plant design capacity of up to 1 million birds/week. 124,800T/yr	Birds slaughtered and processed into whole bird or meat portions
Section 6.8A(1) (b)	Odour treatment chemicals	See Application Document PPN-00003, Section 5.11 & Appendix D, Figures 6 - 8		
Section 6.8A(1) (d)(i)	Whole bird and meat portions	158T/day (6 days / week)	49,296T/yr	Chicken carcass and portions cut into various smaller meat cuts
Section 6.8A(1) (d)(i) Section 6.8A(1) (b)	Cleaning chemicals	See Application Document PPN-00003, Section 5.11 & Appendix D, Figures 1-5		
Section 6.8A(1) (d)(i) Section 6.8A(1) (b)	Packaging materials	See Application Document PPN-00003, Section 5.11		
Section 5.4A(1) (a) (i)	Effluent treatment chemicals	See Application Document PPN-00003, Section 5.11 & Appendix D, Figures 6, 8,9,10,12		
Section 6.8A(1) (d)(i) Section 6.8A(1) (b)	Boiler fuel - fuel oil, non-waste derived solid natural biomass	See Application Document PPN-00003, Section 5.11 & Appendix D, Figure 11
