

Schedule 5 – Notification

This page outlines the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the PPC Regulations.

Part A

Permit Number	EPR/AP3739KS
Name of Operator	Flintshire County Council Waste Management Service.
Location of Installation	Brookhill Landfill Site, Pinfold Way, Buckley. CH7 3PL.
Time and date of the detection	9-54am 30 th January 2014

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, fugitive emission which has caused, is causing or may cause significant pollution.

To be notified within 24 hours of detection

Date and Time of the event	9-54am 30 th January 2014
Reference or description of the location of the event	Gas monitoring Borehole 19
Description of where any release into the environment took place	No gas release was detected
Substances(s) potentially released	Landfill Gas.
Best estimate of the quantity or rate of release of substances	Nil.
Measures taken, or intended to be taken, to stop any emission	Checked gas extraction collection system and knock out pots for faults.
Description of failure or accident	Very minor change of gas quality at 1.1% ie 0.1% above trigger value.

(b) Notification requirements for the breach of a limit

To be notified within 24 hours of detection unless otherwise specified below

Emission point reference/ source	Gas Mon Borehole 19
Parameter(s)	
Limit	1% CH ₄
Measured value and uncertainty	1.1% +/- 0.1%
Date and time of monitoring	9.54 am 30 th January 2014
Measures taken, or intended to be taken, to stop the emission	Check gas collection system for faults.

OK FOR PUBLIC REGISTER	INITIALS	DATE
	AS	11/03/14
COPIED TO PUBLIC REGISTER	JB	EDM

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period
Trigger level 1% CH4	24hrs.

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	N/A
Substances(s) detected	N/A
Concentrations of the substances detected	N/A
Date of monitoring / sampling	January 30 th 2014

Part B to be supplied as soon as practicable

Any more accurate information on the matters for notification under Part A.	
Measures taken, or intended to be taken, to prevent a recurrence of the incident	Flare & gas collection system checked.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment or harm which has been or may be caused by the emission	No further measures necessary
The dates of any unauthorised emissions from the installation in the preceding 24 months.
