**Facility: Trostre Works, Llanelli, Carmarthenshire, SA14 9SD**

Thank you for your application received on 14/02/2018. I need to ask you for some more information before I can decide that your application is duly made. The information required is summarised below:

Incomplete application forms

Not all of the questions included in the application forms have been answered. Please could you review the submitted answers for the following questions and resubmit details to complete or clarify the answers;

- Form A, Question 5: not answered
- Form A, Question 7a: not answered
- Form C2, Question 2c1: current answer indicates a consolidated permit is not requests (contrary to the non-technical summary)
- Form C2, Question 4d2: Both 'Yes' and 'No' have been selected. Only one answer is permitted

Missing Supporting Documents

The application will require supporting OPRA files to describe the current charging requirements of the two present installations (the 'Trostre Works' and the 'Trostre Boiler House') as well as a combined OPRA to describe the charging requirements post-consolidation.

Additionally, the application form C2 makes reference to the site plan in EPR/BX9471IU for use in the intended consolidated permit. This site map does not presently describe the location of the emission points associated with the Trostre Boiler House.

Please submit the required OPRA files and appropriate Site Plan.

Please reply within 10 working days from the date of this letter. If we don't hear from you, we must return your application and fee.

When we receive the missing items we'll continue to check the details in your application. If there's enough there for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

If you email or write to us please quote the application reference PAN-002363 on any correspondence and send it to the relevant address below.
