Dear Joel,

Environmental Permitting (England & Wales) Regulations 2010 (as amended)

**Re. Enforcement Position – Commissioning of Continuous Homogeniser and
Sawing Line**

Thank you for your letter dated 23rd April 2014.

We have considered your request to commence commissioning of the new continuous homogeniser and sawing line prior to the determination of your permit variation application reference BK3638IF/V003.

We agree to take a non enforcement position in so far that you may undertake the commissioning activities detailed in your letter up until 20th June 2014 (unless otherwise agreed in writing) without the benefit of the required permit variation.

This non enforcement position does not pre-determine your variation application which remains subject to the normal permitting process.

If it comes to our attention that the commissioning activities are giving rise to an unacceptable environmental impact, this non enforcement position may be revoked requiring your to stop the non-permitted activities.

We anticipate that your variation application will be determined by 20th June 2014 or sooner.

Yours sincerely,

Stuart Ross
