The Environmental Permitting (England & Wales) Regulations 2016

Hydro Aluminium Deeside Limited

**Wrexham Aluminium Works
Bridge Road
Wrexham Industrial Estate
Wrexham
LL13 9PS**

Variation application number

EPR/BK3638IF/V005

Permit number

EPR/BK3638IF

Wrexham Aluminium Works

Permit number EPR/BK3638IF

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation incorporates the changes required by the Industrial Emissions Directive following a statutory review of permits in the non-ferrous metals sector. These include the amendment of the wording of several permit conditions relating to notifications, changes to emission limits and monitoring requirements and also includes the addition of a condition relating to a requirement for monitoring of groundwater and soil. The interpretation section of the permit has also been updated and the opportunity has been taken to consolidate the original permit and subsequent variations. The permit has also been updated to a modern condition format.

The Industrial Emissions Directive (IED) came into force on 7 January 2014 with the requirement to implement all relevant Best Available Techniques (BAT) conclusions as described in the Commission Implementing Decision. The BAT conclusions for the non-ferrous metals industries were published on 30th June 2016 in the Official Journal of the European Union (L174) following a European Union wide review of BAT, implementing decision 2016/1032/EU of 13th June 2016. We are satisfied that the operator will be compliant with the published BAT conclusions which will apply from 30th June 2020.

The schedules specify the changes made to the permit. Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the changes being made.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application BK3638 received	07/09/2001	
Response to Schedule 4 Notice 11/12/01 provided	14/01/2002	
Supplementary information provided	30/01/2002	Map and slight amendment to waste storage information
Supplementary information provided	25/02/2002	Further slight amendment to waste storage
Supplementary information provided	08/03/2002	Clarification regarding monitoring details
Agency-initiated variation EPR/BK3638IF/V002 determined - variation notice issued	14/07/2009	Agency-initiated permit review
Variation application EPR/BK3638IF/V003 received	19/03/2014
