Environmental Permitting (England & Wales) Regulations 2010

Thank you for your letter and accompanying information dated 13/05/15 seeking permission to introduce an alternative raw material at Padeswood Works.

This specifically relates to the introduction of an iron oxide mineral product originating from the steel manufacturing process.

I have reviewed your risk assessment and supporting information and in accordance with permit condition 2.3.9 grant permission for you to introduce the material to the process.

This permission is subject to your regular review of the risk assessment and control measures in place to ensure environmental protection and permit compliance.

Yours sincerely,

Stuart Ross
Regulatory Officer, Industry Regulation Team
Swyddog Rheoliadol, Tim Rheoliad Diwydiant
