Re. Change of SRF Source – Padeswood Cement Works

Thank you for letter dated 01/07/15 and the supporting information submitted 07/07/15 regarding the proposed introduction of SRF sourced from EconPro of Deeside Industrial Estate.

This specifically relates to EWC 19 12 10 consisting of shredded carpet waste.

I have reviewed the information submitted against the requirements of your permit and have no objection to the introduction of this material at Padeswood Works.

As per normal requirements, you must continue to make regular checks to ensure the material meets the specification set out in the permit.

Yours sincerely

Stuart Ross
