**Padeswood Cement Works – Action Timescales**

Thank you for your recent response to the actions arising from the NRW site audits completed on 06/08/15 and 07/10/15.

A number of actions linked to the Pollution Prevention Audit remain outstanding and are pending the outcome of a partial site drainage survey and other investigatory work. It is agreed that the outstanding actions shall be completed by 31/12/15.

Further to item 1 as detailed in my e-mail of 16/10/15, the proposed scope for a review of operations shall be submitted to NRW by 27/11/15.

Yours sincerely,

Stuart Ross  
Regulatory Officer
