At: LLANMADOC P.S.NO 2 EMERGEN, UNKNOWN, UNKNOWN, UNKNOWN,  
UNKNOWN.

**Type of assessment carried out:** Audit, Reason: Incident Response (Incident number: 2201472).

On 07/03/2022.

Parts of permit assessed: 4. Discharge

**NRW Lead Officer:** Sarah Bennett.

**Report sent to:** CARS@dwrcymru.com, CARS Mailbox, on 23/05/2022.

### 1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-B1 - Operations - Permitted activities	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

For a period of time between the 19 and 21 February 2022 sewage was discharged from Cwm Ivy Sewage Pumping Station to the permitted outfall point.

The discharge occurred following a loss of external power to the area during Storm Eunice and an inability to restore power to the pumping station before a discharge was made.

The discharge has been assessed as compliant with the conditions of the permit, notably that the emergency overflow shall only operate in the event of a failure of the electricity supply.

Under normal weather conditions we would expect a temporary power source to have been set up to try and prevent a discharge from occurring. This is particularly important at this location because the discharge is made to a Site of Special Scientific Interest.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

### If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
