## **ENVIRONMENT MANAGEMENT SYSTEM**

Spent sheep dip will be added to water in a vacuum tanker and spread on the land identified in the application when weather and soil conditions are favourable.

## **SUMMARY**

A mobile dipping facility will be used to dip sheep with OP dip in the Autumn on the yard sheep handling facilities at Pencoedcae farm.

The leftover Spent sheep dip of around 0.5 cubic metres will be added to water in a vacuum tanker and spread on the land identified in the application when weather and soil conditions are favourable.
