This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

The attached minutes outline the issues that were discussed. Since then there has been a change in how NRW has looked at this development. This change was discussed on 23 March 2017 see CAR NRW 0031496.

Much of the content of this meeting remains valid as the change only affects the timescales for the permitting of this change to the Pembroke Refinery.
