Variation application number  
EPR/BS6149IQ/V009

Permit number  
EPR/BS6149IQ

# **Pencoed Rockwool**

## **Permit number EPR/BS6149IQ**

### **Introductory note**

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

The Industrial Emissions Directive (IED) came into force on 7<sup>th</sup> January 2014 with the requirement to implement all relevant BAT conclusions as described in the Commission Implementing Decision. The glass manufacture BAT conclusions were published on 8<sup>th</sup> March 2012 in the Official Journal of the European Union following a European Union wide review of BAT.

This variation incorporates the changes required by the Industrial Emissions Directive following a statutory review of permits in the glass and mineral fibre sector. This includes the amendment of the wording of several permit conditions relating to notifications and also includes the addition of a condition relating to a requirement for monitoring of groundwater and soil. At the same time the permit has been converted into the current EPR Permit format.

This variation also corrects errors made in the previous version of the permit.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
