Dear Mr McKenna

**Environmental Permitting Regulations (England and Wales) 2010
Chemical Trial Request Primecoat Z808**

I refer to your e-mail of 09 May 2013 requesting the trial application of Primecoat Z808 on No.5 Galv Line. This substance has highly hazardous properties and will need particular care in its storage and handling to prevent emissions to the environment. However, the information provided demonstrates that the potential environmental impact has been assessed and will be minimised by following appropriate procedures. It will be acceptable to Natural Resources Wales for the trial to go ahead. If larger quantities are to be stored on site you will need to assess whether the volumes affect your COMAH inventory, and if the treatment chemical is to be used permanently a permit variation may be required.

Yours sincerely

Alison Soper
Regulatory Officer PPC/RSR
