Dear Mr Shephard

**Environmental Permitting (England and Wales) Regulations 2010
Emissions from Chrome-free Passivation – No.6 Galv Line**

With reference to your recent correspondence regarding the new chemcoater on no.6 Galv Line, it will be acceptable for the Chrome-free emissions to vent directly to atmosphere rather than be directed through the stack. Please could you let NRW know when the Chemcoater is installed and the changes implemented.

Yours sincerely

Alison Soper
