Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the transfer of an environmental permit to a new operator (the transferee).

This notice is for the full transfer of the permit EPR/BP3131SG for Withyhedge Landfill issued in September 2010. The site has recently undergone a consolidation exercise incorporating the two sites at Withyhedge under one EPR permit. This involved the consolidation of the permits EPR/HP3498FS and EPR/BP3131SG.

The site is classified as a non-hazardous landfill site, but it has historically accepted a restricted number of hazardous wastes, including asbestos under the previous permit EPR/HP3498FS for phase 1. The site was operated by Resources Management UK Limited.

Schedule 1 of the notice lists any deleted conditions, Schedule 2 of the notice lists any amended conditions and Schedule 3 of the notice lists any conditions that have been added.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
