|----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Substances Emitted Which May Cause Harm</b>                             | High solids in the Waste water discharge                                                                                                                                   |
| <b>Emission:</b>                                                           | 09.38hrs to 11.38hrs, 22.15hrs to 00.15hrs, 22.57hrs to 00.57hrs.                                                                                                          |
| <b>Time:</b>                                                               |                                                                                                                                                                            |
| <b>Dates:</b>                                                              | 11/05/2018, 12/05/2018, 13/05/2018                                                                                                                                         |
| <b>Location:</b>                                                           | W1, Waste Water Treatment Plant discharge point                                                                                                                            |
| <b>Authorised Emission Limit for this Emission Point</b>                   | Two hours after high tide for a two-hour period                                                                                                                            |
| <b>Estimate of Emission Quantity or Rate and Duration of the Emission:</b> | Quantity of waste water discharged was 572m <sup>3</sup> (286mg/l), 572 m <sup>3</sup> (314mg/l) and 776 m <sup>3</sup> (270mg/l) discharged over a period of 120 minutes. |
| <b>Environmental Medium into Which the Emission Took Place</b>             | Water                                                                                                                                                                      |
| <b>Measures Taken (or Intended to be Taken) to Stop the Emission</b>       | Discharges had completed before the final analysis was known. The pre-discharge samples indicated a low result.                                                            |
