

Natural Resources Wales permitting decisions

Variation

We have decided to issue the variation for Warwick Chemicals operated by Warwick International Group Limited.

The variation number is EPR/BU2357IP/V012

We consider in reaching that decision we have taken into account all relevant considerations and legal requirements and that the permit will ensure that the appropriate level of environmental protection is provided.

Purpose of this document

This decision document:

- explains how the application has been determined
- provides a record of the decision-making process
- shows how all relevant factors have been taken into account
- justifies the specific conditions in the permit other than those in our generic permit template.

Unless the decision document specifies otherwise we have accepted the applicant's proposals.

Structure of this document

- Annex 1 the decision checklist

Annex 1: decision checklist

This document should be read in conjunction with the application, supporting information and permit / notice.

Aspect considered	Justification / Detail	Criteria met Yes
Receipt of submission		
Confidential information	<p>A claim for commercial or industrial confidentiality has been made by Warwick International Group Limited.</p> <p>We have accepted the claim for confidentiality. We consider that the inclusion of the relevant information on the public register would prejudice the applicant's interests to an unreasonable degree. The reasons for this are given in the notice of determination for the claim. The decision was taken in accordance with our guidance on commercial confidentiality.</p>	✓
Identifying confidential information	<p>The applicant has identified information provided as part of the application that is considered to be confidential. NRW agree, the decision was taken in accordance with our guidance on commercial confidentiality.</p>	✓
Environmental Risk Assessment and operating techniques		
Environmental risk	<p>We have reviewed the operator's assessment of the environmental risk from the facility. The operator's risk assessment is satisfactory.</p>	✓
Operating techniques	<p>We have reviewed the techniques used by the operator and compared these with the relevant guidance notes.</p> <p>The proposed techniques for priorities for control are in line with the benchmark levels contained in the TGN and we consider them to represent appropriate techniques for the facility.</p>	✓
The permit conditions		
Improvement conditions	<p>Based on the information on the application, we consider that we need to impose improvement conditions.</p>	✓
Emission limits	<p>We have decided that emission limits should be set for the parameters listed in the permit. The relevant tables in the permit have been updated to reflect changes to the point source emissions, i.e the removal of A3 and amendment of A20 due to changes to on site processes.</p>	✓
Monitoring	<p>We have decided that monitoring should be carried out for the parameters listed in the permit, using the methods detailed and to the frequencies specified. The relevant tables in the permit have been updated to reflect changes to the point source emissions, i.e the removal of A3 and</p>	✓

Aspect considered	Justification / Detail	Criteria met
		Yes
	amendment of A20 due to changes to on site processes.	
Reporting	We have specified reporting in the permit. The relevant tables in the permit have been updated to reflect changes to the point source emissions, i.e the removal of A3 and amendment of A20 due to changes to on site processes.	✓
Operator Competence		
Environment management system	There is no known reason to consider that the operator will not have the management systems to enable it to comply with the permit conditions. The decision was taken in accordance with RGN 5 on Operator Competence.	✓
