Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

On the 12 September 2017, there were 12 invalid results for CO, but only 2 invalid results for other pollutants, please confirm whether this was an issue with the CO CEMS?

On the 17 September 2017, a maximum ten minute average emission of 1789mg/m³ for CO was noted. No exceedances of the 10 minute average ELV were noted on the reporting form, please can you indicate the reason for this?
