Section 1 - Compliance Assessment Summary					
This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation and any action you may need to take are given in the "Detailed Assessment of Compliance" (section 3). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS scores can be consolidated or suspended, where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- the part(s) of the permit that were assessed (e.g. maintenance, training, combustion plant, etc)
- where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- any non-compliances identified
- any non-compliances with directly applicable legislation
- details of any multiple non-compliances
- information on the compliance score accrued inc. details of suspended or consolidated scores.
- details of advice given
- any other areas of concern
- all actions requested
- any examples of good practice.
- a reference to photos taken

This report should be clear, comprehensive, unambiguous and normally completed within 14 days of an assessment.

The Operator Monitoring Assessment was carried out on 17/11/15, with an overall score of 88%.

C2 Management Systems and Operating Procedures - CCS4

OMA 1 - management of monitoring - 76%

OMA 2 - periodic monitoring and test laboratories - 98%

OMA 3 -continuous monitoring - N/A

OMA 4 - quality assurance - 90%.

Further details can be found in the attached Operator Monitoring Assessment report.

Action

Monitoring procedures need to be updated to include more detail as to how monitoring is carried out, specific monitoring requirements, responsibilities, review of results and training programme.

G4 Reporting and Notification to Natural Resources Wales CCS4

The quarterly emission report to surface water for W2 was submitted on 01/09/15 for Q2 2015. Permit section 4.1.2.4 requires that this report is submitted to NRW within 28 days of the end of the reporting period. In addition, the BOD result was a breach of the emission limit value (30mg/l versus 6mg/l limit), and this should have been reported using the Part A notification form within 24 hours of detection (Permit Section 5.1.2.1).

Action

Review the breach and send in a Part B form.

E3 Emissions to Surface Water CCS3

The Q2 report to surface water for emission point W2 showed that the BOD result was 30mg/l versus 6mg/l limit. Permit Section 5.1.2.1 requires that a Part B notification form to be submitted to Natural Resources Wales.

Action

Part A to be submitted for the breach of emission limit values. Ensure procedures are up to date to include this reporting requirement.

Section 3- Enforcement Response	Only one of the boxes below should be ticked
You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.	
Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.	☐
In respect of the above non-compliance you have been issued with a warning. At present we do not intend to take further enforcement action. This does not preclude us from taking additional enforcement action if further relevant information comes to light or offences continue.	☒
We will now consider what enforcement action is appropriate and notify you, referencing this form.	☐

Section 4- Action(s)			
Where non-compliance has been detected and an enforcement response has been selected above, this section summarises the steps you need to take to return to compliance and also provides timescales for this to be done.

Section 5 - Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- advise on corrective actions verbally or in writing
- require you to take specific actions in writing
- issue a notice
- require you to review your procedures or management system
- change some of the conditions of your permit
- decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you.

● We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.

● Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- ensure you comply with other legislative provisions which may apply.

Non-compliance scores and categories
