Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
E3 - Emissions - Surface water	A	
E4 - Emissions - Sewer	A	
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	C4	4.2.2, 4.2.3

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	1	Total compliance score (see section 5 for scoring scheme)	0.1
------------------------------------	----------	---	------------

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

Quarterly monitoring returns for emissions to water:

Q3 returns received 27/11/17, Q4 received 07/02/2018. All periodic monitoring returns should be submitted to NRW within 28 days of the end of the reporting period as required by Condition 4.2.2 of the permit, which states:

Within 28 days of the end of the reporting period the operator shall, unless otherwise agreed in writing by Natural Resources Wales, submit reports of the monitoring and assessment carried out in accordance with the conditions of this permit, as follows:

(a) in respect of the parameters and emission points specified in schedule 4 table S4.1;

(b) for the reporting periods specified in schedule 4 table S4.1....

in respect to emissions to water the reporting period is quarterly (e.g. 1 Jan to 31 March - Q1).

2017 Annual reporting:

Annual reporting forms S1, E1, WU1, R1 were received on 07/02/2018

It is noted that increases in COD to sewer and energy usage during 2017 were due to increased production and changes in effluent management. There has been a decrease in the volume of waste recovered by land spreading due to reductions in heavy effluent volumes and water usage has decreased.

Condition 4.2.3 requires:

.. A report or reports on the performance of the activities over the previous year shall be submitted to Natural Resources Wales by 31 January (or other date agreed in writing by Natural Resources Wales) each year.

Revised forms for all monitoring and reporting requirements are provided with this CAR form, please ensure the new forms are utilised from this point onwards and the monitoring requirements of Condition 3.3.1 and Table S3.2 as previously discussed on site in relation to the monitoring of Bromine rather than chloride at emission point W2.

EP Documentation reviews for the accident management plan, SPMP and site closure plan were received on 16/01/2018 as required under previous versions of the permit, these are no longer required to be submitted annually.

The above breaches of condition 4.2.2 and 4.2.3 are consolidated into a single category 4 score.

Action: update the relevant EMS procedures relating to monitoring and reporting to NRW to reflect the requirements of the consolidated permit conditions 3.3.1 and Table S3.2, and incorporate the revised reporting forms **by 31/05/2018**.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

We will now consider what enforcement action is appropriate and notify you, referencing this form.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			
G4	C4	Ensure that the reporting requirements of Version 005 of the permit (issued 23/02/2017) are met and that procedures within the site management system reflect the monitoring and reporting requirements of Schedule 3 and 4.	31/05/2018

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
